Indian

PROFILE

I'm a passionate Web Developer and BTech student who loves turning ideas into sleek, responsive websites. I've built fast, user-friendly web apps using HTML, CSS, JavaScript, and React, and collaborated on team projects that solved real-world problems. I'm driven by curiosity and the thrill of learning new tech every day. Skilled in front-end development, UI/UX design, and problem-solving—I'm all about building the future, one line of code at a time!
